BEGONIAS—FLOWERING.

Three New Double Flowered Begonias.

Really valuable additions to the Begonia family; plants are vigorous in growth and blossom with greatest freedom. Flowers perfectly double. Very unique and attractive.

Boule de Nieve. Pure white, with yellow stamens; a handsome flower, large and full. \$1.25 per doz.

Glorie de Monet. Very free bloomer, perfectly double; bright carmine changing to clear pink at center of flower. \$1.25 per doz.

Triumph de Lorraine. Flower perfectly double, with nicely imbricated petals, color brightest scarlet, changing to cherry carmine when fully opened. \$1.25 per doz.

New Begonia Marjorie Daw.

A strong healthy grower of semi-trailing or climbing habit. Foliage deep glossy-green. A beautiful shade of salmon pink flowers produced in long drooping clusters. \$1.50 per doz.

Three New French Begonias.

The following three varieties are somewhat similar in habit of growth, being very vigorous and upright. Make beautiful specimen pot plants; of the type of Begonia Fuchoides.

Profusion. Flowers bright pink, produced evenly all over the plant. One of the finest for house or summer bedding. \$1.00 per doz.

Fournaise. Flowers produced in long drooping panicles, bright red. \$1.00 per doz.

Vesuve. One of the most effective when grown up into large plants. Flowers bright coral red in good sized clusters. \$1.00 per doz.

General Collection Flowering Begonias.

Bijou. (Branching Vulcan.) Valuable bedding Begonia of the Vernon type, but more branching. Makes shapely plants if cut back occasionally. Flowers bright scarlet. \$4.00 per 100.

Erfordia. One of the most prolific bloomers, continually covered with clusters of its delicate rosy salmon flowers. \$3.00 per 100.

Otto Hacker. The finest of its type, both in foliage and flower. Its leaves are shiny velvety green, at times slightly spotted white. Flowers produced in immense pendant clusters 8 to 10 inches across. Color, bright coral red, changing to satiny rose. \$6.00 per 100.

Purity. The most prolific bloomer of all the white Begonias, being a mass of bloom both summer and winter. \$4.00 per 100.

Rubra. Flowers rich coral red, in large pendant panicles. One of the best. \$4.00 per 100.

Viandii. A charming Begonia; a cross between Duchartrei and Pictaviensis. Flowers delicate rose, set off with reddish hairs, forming a large flower cluster held up by stout shaggy stems. \$1.50 per doz.

CLEMATIS PANICULATA.

Sweet scented, pure white, star-shaped flowers. Strong field grown plants, \$10.00 per 100.

DUKE OF MARLBOROUGH.

CANNAS.

Alsace. In this variety we have the nearest approach to a pure white Canna. A grand variety for contrasting with darker colored sorts. \$3.00 per 100.

Beauty of Poitevine. Bright rich crimson, with erect flower spikes, growing 3 to 3½ feet high. It comes into bloom very early and flowers continually throughout the season. \$3.00 per 100.

Black Beauty. Its foliage is grand, being of a deep bronzy wine-red, almost black. Grows 5 to 6 feet high, and when foliage effect alone is wanted this variety cannot be equaled. \$15.00 per 100.

Duke of Marlborough. A superb variety with dark velvety crimson maroon flowers, the darkest of all Cannas. A sturdy erect grower, with bluish metallic green foliage. \$4.00 per 100.

Robert Christie. As attractive as any Canna we have ever grown; grows 4 to 5 feet high and produces quantities of bright orange-scarlet flowers in large shapely trusses. \$1.00 per 100.

Mad. Crozy. Still one of the most popular golden-bordered varieties; dazzling crimson scarlet, bordered golden yellow. \$4.00 per 100.

Philadelphia. A bright glowing crimson, very brilliant, early and free flowering. One of the most desirable of all red or crimson Cannas. \$4.00 per 100.

Pres. Cleveland. Brightest orange-scarlet. One of the most showy; flowers of immense size. No Canna can compare with it for producing a mass of glowing color. \$4.00 per 100.

CARNATIONS

General Collection.

From Pots or Flats.

America. Pure light scarlet of even shade, comes into bloom early and its strongest points are its freedom of bloom, large size and easy culture. Stems 20 to 24 inches. \$3.00 per 100.

Alma. A splendid broad, flat flowered commercial variety. Quite a distinct shade of deep rosy pink. \$3.00 per 100.

Ethel Crocker. Combines nicely all the requirements of a large flowered and free blooming "money-earner." Will produce more long stemmed, perfect flowers than any other variety. Color, pure pink, deeper and brighter than Scott. \$4.00 per 100.

Flora Hill. Still the best paying white. Nothing in the line of white carnations equals it in size of flower or freedom of bloom. \$3.00 per 100.

G. H. Crane. The finest all round scarlet to date; of strong and vigorous habit of growth, making an endless number of cuttings. It is a large flowered sort, producing both quantity and quality. When well grown, flowers average 3 inches, with perfect calyx and good strong stem that holds the flowers erect all the season. \$3.00 per 100.

Gen. Maeco. Very full deeply fringed flower 2½ to 2¾ inches in diameter. Ground color, deep brilliant scarlet heavily overlaid with maroon, fully as rich and striking as the Meteor Rose. \$3.00 per 100.

Genesee. A good commercial white. \$2.50 per 100.

Genevieve Lord. A beautiful shade of pink, almost the same shade as Mrs. James Dean. Flowers large and attractive. One of the strongest growing and freest flowering; a splendid keeper and easy to successfully cultivate. \$6.00 per 100.

Jubilee. Rich intense scarlet. An excellent variety where well grown. \$3.00 per 100.

Mrs. James Dean. Clear silvery pink. \$3.00 per 100.

Olympia. A beautiful clear glossy white with delicate pencilings of clear scarlet running through the petals, but much less red than in Mrs. Bradt. Deliciously fragrant. Stem under ordinary circumstances 2 to 2½ feet, strong enough to carry its heavy flower. \$6.00 per 100.

Psyche. Pure white delicately penciled scarlet. \$2.50 per 100.

Triumph. Pure bright pink, extra large. A fine grower with long stiff stems. Calyx does not burst. \$2.50 per 100.

White Cloud. A cross between Daybreak and E. A. Wood. Strong growth, free blooming, from early to late; long, strong stems. Has proven itself one of the best whites. \$3.00 per 100.

NEW CARNATIONS—Rooted Cuttings.

Prosperity. (Dailedouze.) An extra large fancy flowered, pronounced the largest of the year. The winner of the Lawson medal in 1900. Flowers purest white, overlaid with pink. Stem, form of flower and calyx perfect. \$3.00 per doz. \$16.00 per 100.

Governor Roosevelt. (Ward.) Admitted by Carnation growers to be as near perfection in form as any Carnation yet introduced. Flowers average fully three inches in diameter throughout the season. Color is deep brilliant scarlet, heavily shaded with maroon. In habit of growth resembles Gen. Maceo, but is a far more vigorous grower with a longer and much stiffer stem, holding the flower perfectly erect. \$12.00 per 100, \$100.00 per 1,000.

California Gold. An excellent yellow variety, closely resembling Ethel Crocker in habit and healthy growth. It is by far the freest flowering variety of its color. Flower of good average size, on stiff, slender stems, golden yellow with soft red markings. A first-class, practical variety. Will be highly valued by every grower needing bright yellow in variety. \$10.00 per 100, \$75.00 per 1,000.

Dorothy. One of the best commercial pinks, having no equal as a paying variety of this color. It is a bright pure pink, about the shade of Scott, produced just as freely, and has no equal in keeping qualities. Flowers much larger than Scott, finely formed and nicely serrated; not an exhibition variety, but as a money maker. \$10.00 per 100, \$75.00 per 1,000.

Lorna. (Dorner.) Flowers pure white, three inches and over in size, very fragrant. Center well filled, rounding the flower to a most pleasing form. Comparing it to its parent, White Cloud, it shows decided improvement in more compact and stronger growth, longer and stronger stem, larger flower with perfect calyx; better form, more pure white. \$10.00 per 100, \$75.00 per 1,000.

Queen Louise. Flowers of good size, on long stiff stems. Blooms early, late and all the time, one of the most profitable white varieties; a clean healthy grower and persistent bloomer. A money maker for the ordinary grower. \$10.00 per 100, \$75.00 per 1,000.

NEW CHRYSANTHEMUMS FOR 1901.

Malcolm Lamond. "A red that does not burn." It is exactly the color of Fisher's Torch, but is much fuller, having three times as many petals. Beautiful velvety crimson. The easiest of its color to grow, and brings out no imperfect flowers. With Black Hawk and G. W. Childs in the same bench showing burnt petals, this variety showed not one injured spot. 35c each. \$3.00 per doz.

Timothy Eaton. The champion Chrysanthemum novelty of the year. Has been successfully exhibited at all of our main shows the past fall by its originators, Miller & Sons of Ontario, Canada. It is the largest globular, Japanese incurved variety yet raised, a healthy grower and brings a full crop of perfect flowers. A pure white seedling of Wanamaker. 50c each, \$5.00 per doz., \$30.00 per 100.

Mary Hill. A seedling from Mrs. Perrin of quite similar habit and growth; flower very much fuller, showing no sign of center. A light, bright shade of pink with a high pearl gloss on the outer petals. Blooms middle of November and is an excellent keeper. 35c each. \$3.00 per doz.

Three New 'Mums from Nathan Smith & Son. Originators' Descriptions.

Iolantha. An incurving pink maturing October 10th to 15th. Fine stem and foliage; height 3½ feet; good from either bud, although second crown (about Sept. 5th) comes a few days earlier. Color a beautiful shade of soft pink. We consider this the best early pink yet produced. Certificated by C. S. A.

Omega. A second early yellow, the same shade as Mrs. J. J. Glassner; 7½ inches in diameter. Belongs to the V. Morel type, but has broader petals. In perfection October 25th. Certificated by C. S. A.

Mrs. Elmer D. Smith. Of the many fine seedlings we have produced in the last ten years, we consider this one possesses more points of excellence than any of its predecessors. A Jap. Inc. of the most perfect form; full, double, high rounded center. Bright yellow, deeper than Golden Wedding. In the C. S. A. Cup Contest at Chicago, it stood second, falling only one point behind the winner. The blooms in this exhibit were 7 in. in diameter. Stem and foliage perfect; scant 3 feet high. This variety will rival Maj. Bonnaffon, being brighter in color, more dwarf, very similar in form, with much heavier and stronger stem. In season November 1st to 10th. Four of the C. S. A. committees gave this variety an average of 92.75 points.

Price, 50c each; \$5.00 per doz.; \$35.00 per 100. Ready April 1st, 1901.

Five of the Best of Last Year's Introductions.

Monrovia. (Mme. F. Bergman and J. E. Lager.) Those intending to be first on the market with Chrysanthemums will welcome this early, bright yellow. It has the excellent stem and foliage of its parents and in form is intermediate. The flowers are deeper than those of Marion Henderson and come at the same date.

Lavender Queen. (Mrs. Jas. Eadie and Thanksgiving.) A large Japanese, outer petals reflexed and center erect, making a flower of great depth. In general habit resembles Thanksgiving. Height 3 feet. A new color, decidedly distinct from any in commerce, being a soft shade of lavender pink.

GOLD MINE.

Goldmine. (Exhibited as Stelleta.) (H. L. Sunderbruch and Modesto.) Unsurpassed in size, having been grown 11 inches in diameter. Foliage and general habit resembles Sunderbruch. Planted June 20th it attained 3 feet in height. Rich golden yellow; outer petals reflexed and center incurving in a whorl.

White Bonnaffon. (Mrs. H. Robinson and Mrs. H. McK. Twombly.) A commercial variety of great promise which we predict will become as popular as the typical Maj. Bonnaffon. Color, pure white, form identical with Bonnaffon, growth very short-jointed, not exceeding 3 feet in height.

Pluma. (Francis B. Hayes and White Swan.) A hairy variety, the most perfect of this type yet introduced. Color very delicate pink.

\$5.00 per 100.

MARQUIS DE CASTELAÏNE.

GERANIUMS.—BRUANTS.**The Grandest Pink Geranium Jean Viaud.**

One of the most important plant introductions of recent years. It is a monstrous flowered clear pink, white-eyed Geranium of the Bruant or "sun-proof" type and is of such vigorous, rapid habit of growth as to make it one of the most valuable bedders. Its florets often exceed $2\frac{1}{2}$ inches in diameter and are nicely rounded and just double enough to be shapely. \$10.00 per 100.

Marquis de Castelaïne. A giant among Geraniums. Produces a wealth of bloom the whole season. Flowers 2 inches and over in diameter. Trusses of bloom 5 to 7 inches across. Petals broad, arranged to form a round flower of perfect shape. Color deep rosy scarlet, shading into pure scarlet at the edge of upper petals. We consider it one of the best red Geraniums ever introduced. \$15.00 per 100.

Jean Madeline. An excellent grower; plant is strong and vigorous, yet shapely, and its flowers are produced on stems long enough to carry them well above the foliage. Flowers large, semi-double, of a beautiful transparent pink shade. \$1.25 per doz.

Robert Charlie. We have in this Geranium a beautiful and entirely new shading for this class. Flowers are delicate rosy mauve, perfection in form and finish and of extra large size. 20c each.

Fleur de Roze. One of the most striking of this year's introductions. Flower clusters are large and compact on thick stout stems; a pleasing shade of bright rosy pink with broad white center. Double. 25c each.

(The Best of the Newer Varieties.)

Double Flowered.

Bertha de Presily. Flowers nicely formed, semi-double, of a beautiful shade of silvery rose.

One of the most free and continuous bloomers, the flowers of a well grown plant completely covering the foliage. Its coloring is delicate, yet stands sun or storm without fading, making it valuable as a bedder. \$2.00 per doz.

Champ de Nieve. Flowers purest white; not a trace of color at the center. Plant dwarf and bushy, always a perfect mass of white. A splendid addition to the small list of white geraniums. 25c. each.

David d'Angers. Light rose delicately mottled carmine. Flowers of good size with rounded petals opening out into a broad, flat flower. 25c. each.

Eugene Delacroix. A grand tall-growing, double scarlet. Individual flower $1\frac{1}{2}$ to 2 inches in diameter, made up into round and compact trusses of bloom. Plant is an extra good grower, making fine large plants, yet compact. 25c. each.

Fiancee. A double white, exceeding all others in size of flower. The individual floret is broad and waxy white, made into round solid trusses that stand well out from the foliage. 25c. each.

M. Gabrielle de Rovira. White at the outer edge, shading to a center of delicate peach.

Blooms freely both summer and winter. One of the most handsome and most delicately shaded of all Geraniums. 25c.

M. Paul Blondeau. One of the most showy and attractive doubles. Flower trusses are immense in size, held up by stout foot-stalks. Color, most brilliant clear rose with white eye, a shade at once very beautiful and valuable to the Geranium grower. 25c each.

DOUBLE AUREOLE SECTION.

Emanuel Arene. A very unique and showy variety of this popular type. Individual floret 2 to $2\frac{1}{2}$ inches in diameter; pure white with broad band of rosy scarlet, forming a startling combination. Its growth is vigorous and upright, producing an abundance of cuttings. 20c each.

Hubert Charon. Clear white center with heavy band of reddish carmine around each petal. This is one of the finest of its class, and puts forth a grand display of bloom at all times. For display plants in greenhouse or for pot plant market it will meet with utmost approval. 10c each.

Mlle. Roche. An especially beautiful variety, flowers large, well opened, showing white spots on a background of carmine. Plant dwarf and vigorous in growth. 15c.

SELECT LIST OF THE BRUANT TYPE.

Alphonse Ricard. Bright vermilion scarlet; fine large truss.

Beaute Poitevine. Very large, semi-double, bright salmon.

Baron de Scalibert. Large salmon-flesh with white center; petals slightly veined red.

Bellerophone. An excellent bedder. A single scarlet with large, round florets, combined into immense trusses held high above the foliage. One of the most attractive in our collection. \$6.00 per 100.

Our selection of varieties all named, \$27.50 per 1000.

LEOPARD.

SENSATIONAL NEW IVY GERANIUM LEOPARD.

The most distinct introduction in the ivy leaved section. There is positively nothing approaching its novel coloring. The flower is large, semi-double and borne in medium size trusses, as rich and distinct as many rare orchids. Ground color is clear lilac pink, the upper petals being heavily blotched with deep crimson and usually marked with distinct maroon spots. Habit of growth is vigorous and it blooms almost continuously; as easily grown as a common Ivy leaved Geranium. Ready in February. \$5.00 per doz.

THE MAMMOTH FLOWERED DOUBLE AUREOLE.

Vera Vend. A large flowered double, entirely different from any other Geranium, and is one of the oddest and most interesting. The border of petals is deep rosy orange with large center striped white and delicately marbled red and orange. A strong grower and continuous bloomer. \$5.00 per 100.

\$4.00 per 100.

BALDUIN.

ROSES.

Balduin. (Hybrid Tea). A very soft intense carmine crimson, with deeper shades in the depths of the petals, resembling American Beauty somewhat in color. Its freedom of bloom is truly marvelous, every shoot producing a flower. Equally valuable for forcing or bedding. \$6.00 per 100.

Gruss an Teplitz. One of the brightest colored roses grown. When first opened it is dark rich crimson, quickly changing to bright scarlet, shading to velvety fiery red. Blooms continually; flowers good size and delightfully fragrant. Plant vigorous and upright grower, making fine pot plants. \$5.00 per 100.

Santa Rosa. A new Rose from California. Is liable to displace Hermosa, which it resembles a great deal. Flowers round and full, very fragrant, and produced in greatest profusion. Color, deep rosy pink, shading to deep rose and coppery red. \$5.00 per 100.

Beryl. A deep golden yellow flower of perfect form and very fragrant. Plant is of robust, vigorous growth and free branching habit. \$4.00 per 100.

Bridesmaid. Most popular pink forcing rose.

Clotilde Soupert. The most vigorous grower and prolific in bloom of any of the Polyantha class. Flowers large, very full, and finely imbricated.

Catherine Mermet. Bright pink at the center, shading lighter to the edge.

Golden Gate. Now accepted as a standard cut-flower rose. Buds long and pointed, opening out into a perfect shaped flower of creamy white, delicately tinged golden yellow and rose.

Gen. Robt. E. Lee. Clear orange yellow, deepening to salmon in matured flower. Buds are long, full and double. One of our best everbloomers.

Mosella. (Yellow Soupert.) Combines the form and size of the Tea Roses with the free flowering, branching habit of the Polyanthas. Light yellow, shading to white at edge of petals; blooms in clusters of 3 to 5 flowers.

Mad. Reine Gerard. Very sweet scented, nicely shaped bud, opening out to a bloom of perfect form when fully developed. Edge of petals bright salmon, shading to a center of bright yellow. \$4.00 per 100.

Souv. du Pres. Carnot. Delicate rosy flesh, shaded a trifle deeper at the center. Flower large, of exquisite shape, with heavy shell-like petals. \$4.00 per 100.

Souv. de Jeanne Cabaud. A beautiful large, full rose of splendid shape; outer petals coppery yellow, shaded to the center, apricot and carmine. \$4.00 per 100.

White Mamam Cochet. Identical with Mamam Cochet in every respect but color, which is beautiful snow white.

Unless noted, \$3.00 per 100.

THREE NEW HARDY CREEPING ROSES.

A grand trio of Roses, the result of crosses between the popular creeping rose, Wichuriana, and good varieties of Tea Roses.

Evergreen Gem. A seedling of Wichuriana and Madame Hoste. Flowers double, yellowish buff in bud, opening to almost white in the mature flower, with a distinct Sweet Briar fragrance.

Gardenia. Seedling of Wichuriana and Perle des Jardins. Buds bright yellow, open flowers cream color, three to three and one-half inches in diameter. Very fragrant.

Jersey Beauty. Another seedling of Wichuriana and Perle des Jardins, the flowers of this variety retaining the pure yellow color of the buds. Blooms very freely with fragrant flowers, frequently three inches in diameter. \$6.00 per 100.
